WOMEN'S SECTION.

NOTES ON THE LACE AND FEMEROLE SECTION OF THE MYSORE DISTRICT INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernacular English terms used for Needle-Work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be awarded, and here now is much to blame. Exhibitors that even if good in itself, was deferred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The items invited to the lace and embroidery section is extremely limited and it is not possible in any one year to include all kinds of needle work.

If too many specimens are received, they cannot be displayed effectively and the crowding of exhibitors, etc., only results in confusion, dirt, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, show and dirty, whether included in the syllabus or not the Sub-Committee wish the exhibitors to be confined to such specimens only as—

- (1) are asked for in the syllabus,
- (2) are considered by them to be really of excellent workmanship,
- (3) are new and fresh.

Ex.— Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A lace Exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one with the perfectly finished in good silk of a rose colour, would stand a better chance of award than a score of less carefully knitted.

Moistures, faded, torn or dirty work cannot be accepted.

Competitors will please note that this year dresses-patterns and head work are not included in the syllabus; and that no hand, neck or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, the suitability for use and sale (including the possibility of its being easily altered or washed) will be taken into consideration, as well as beauty of design, material, selecting and workmanship.

G. SUBBESWAMI IYER,
Secretary.

Section I.

The competition will commence on Tuesday the 22nd of October 1912 and will be continued for three days.

1. Weavers will be required to work for 7 hours a day, from 8 to 11-30 a.m. and from 2 to 5-30 p.m.

2. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

3. The rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prize or medals will be given to competitors in a certain class, when the number is less than 3. But all those weavers will be given their third class fare to and from the exhibition place or reasonable suit fare and an allowance of five annas per day for five days only, if they come and demonstrate all the operations that are involved in the class for competitors. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A race that has been completed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but each competitor may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes in the looms.

6. Competitors will be allowed to fix the warp on the looms beforehand and to stretch a length not exceeding two yards before the competition commences.

7. Under Sub-Committee with the Civil Engineer (Chief of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. In (a), (b) and (c) the cross borders must be of silk and in (d) and (e) they must be of lace.

The authorities may allow any other tests provided there are sufficient numbers of competitors.

8. The competitors will produce samples from the exhibition authorities and use them also for competition and the competitors must bring in their own wools.

Intending competitors should inform the Secretary at least 30 days before the competition commences. The head weavers will get their daily allowances only. All competitors must bring their own yarn.

(i) In awarding prizes to the weavers the judges will take the following points:—

The work done:—

- (2) Uniformity of picking and cohesion in specification.
- (3) Freedom from broken ends.
- (4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the judges will consider in addition:—

(a) Adaptability of the loom:—

- (1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.
 - (2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.
- (b) Mechanism of the loom:—
- (1) Soundness and proper proportion of its parts.
 - (2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.
